Subject: Yucca Moutain Nuclear waste dump

Federal Record Status Not Determined

To whom it may concern:

I am merely a private citizen interested in making sure the public gets every chance to participate in government decisions which effect us directly.

Please postpone and reschedule the hearings for the Yucca Mountain Nuclear Waste dump scheduled in September. The public needs more time to understand this issue and comment.

I personally am violently opposed to transporting dangerous nuclear materials across our highways, and would welcome a chance to educate others about this plan. I am confident others would want to also participate in the decision the Department of Energy is making about this issue. Without sufficient time, we will not be able to participate. You must postpone the hearings, and schedule them at a later date, at a time and in a place where the public will be encouraged to comment.

Thank you for your consideration.
